City Council Regular Meeting

April 15, 2019

Current Road Section

Provides two travel lanes, bike lanes and sidewalks, including one mixed-use trail

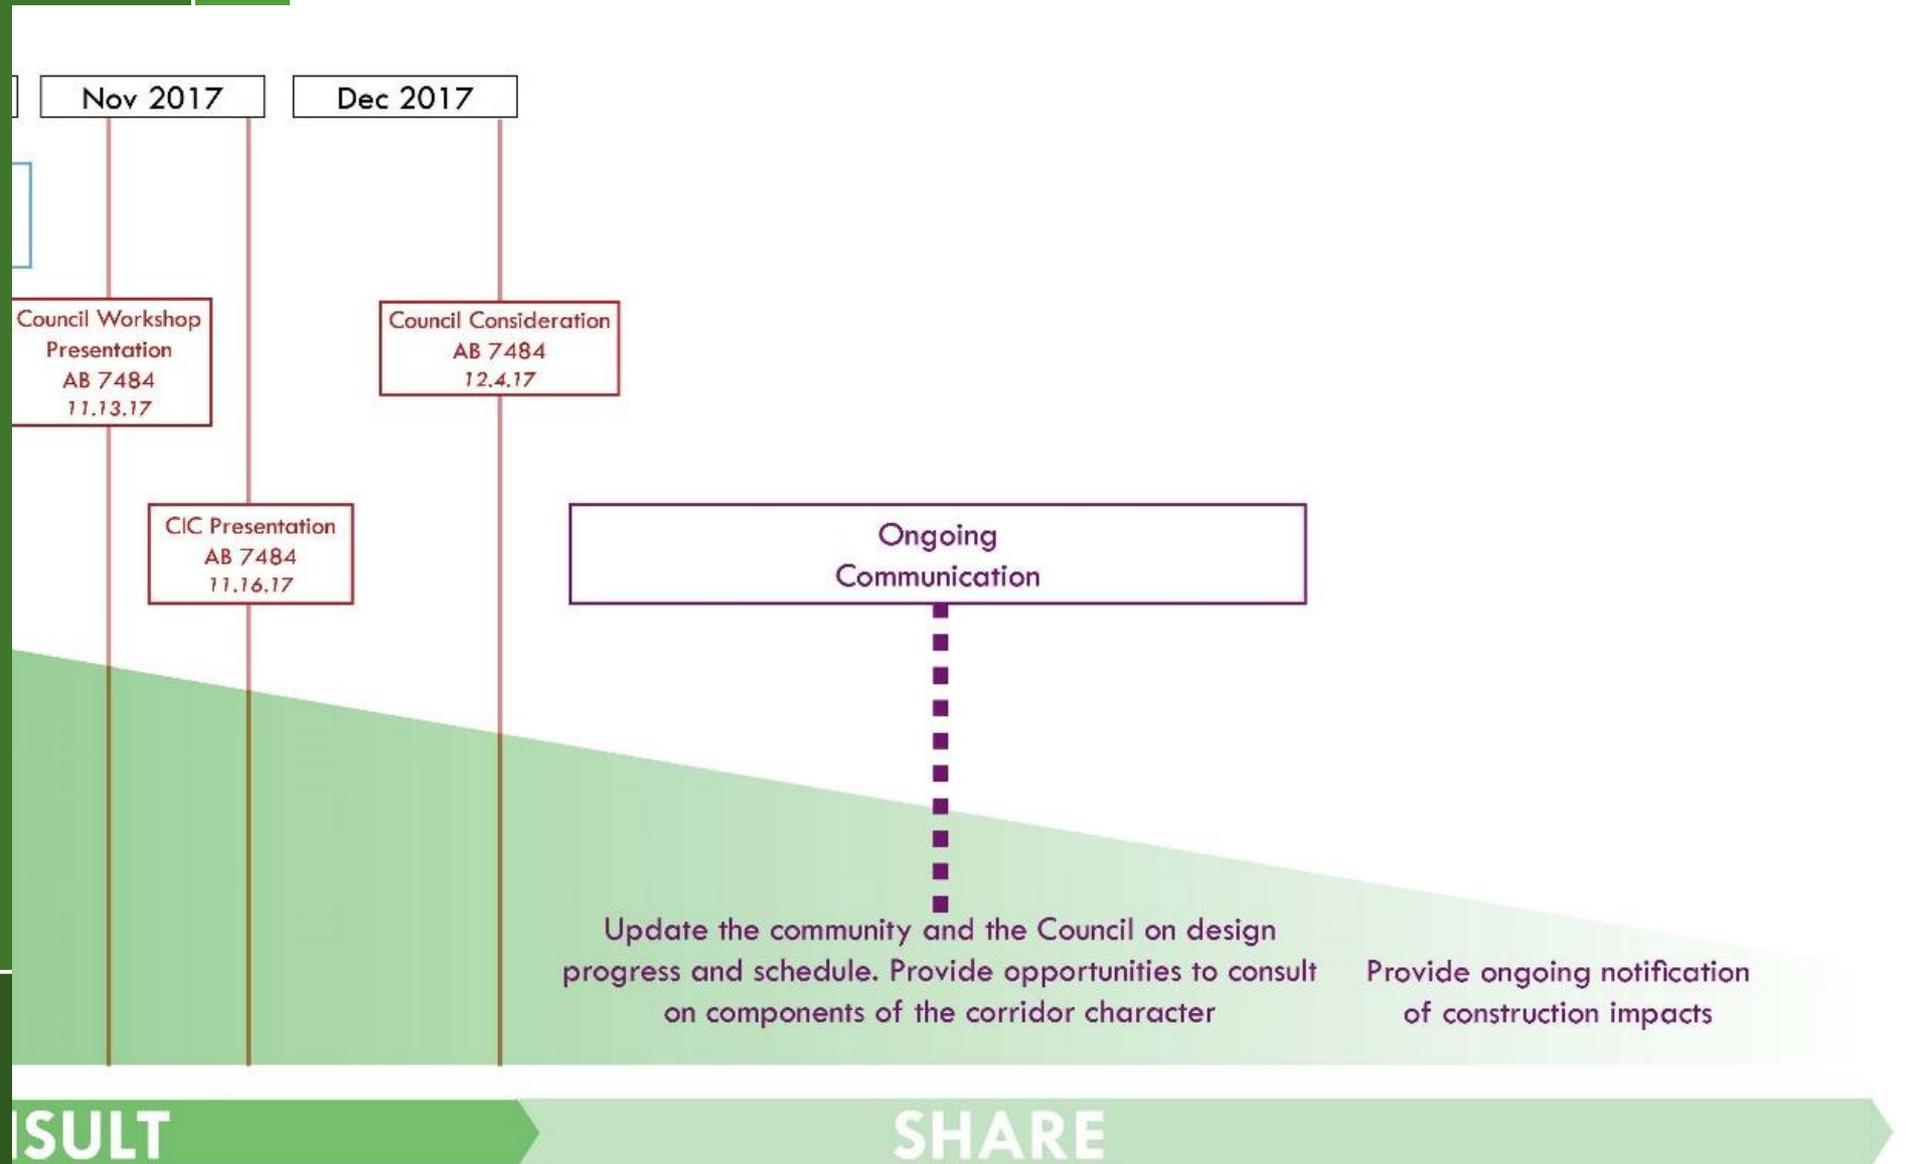

Pilot Public Engagement Process

COLLABORATE

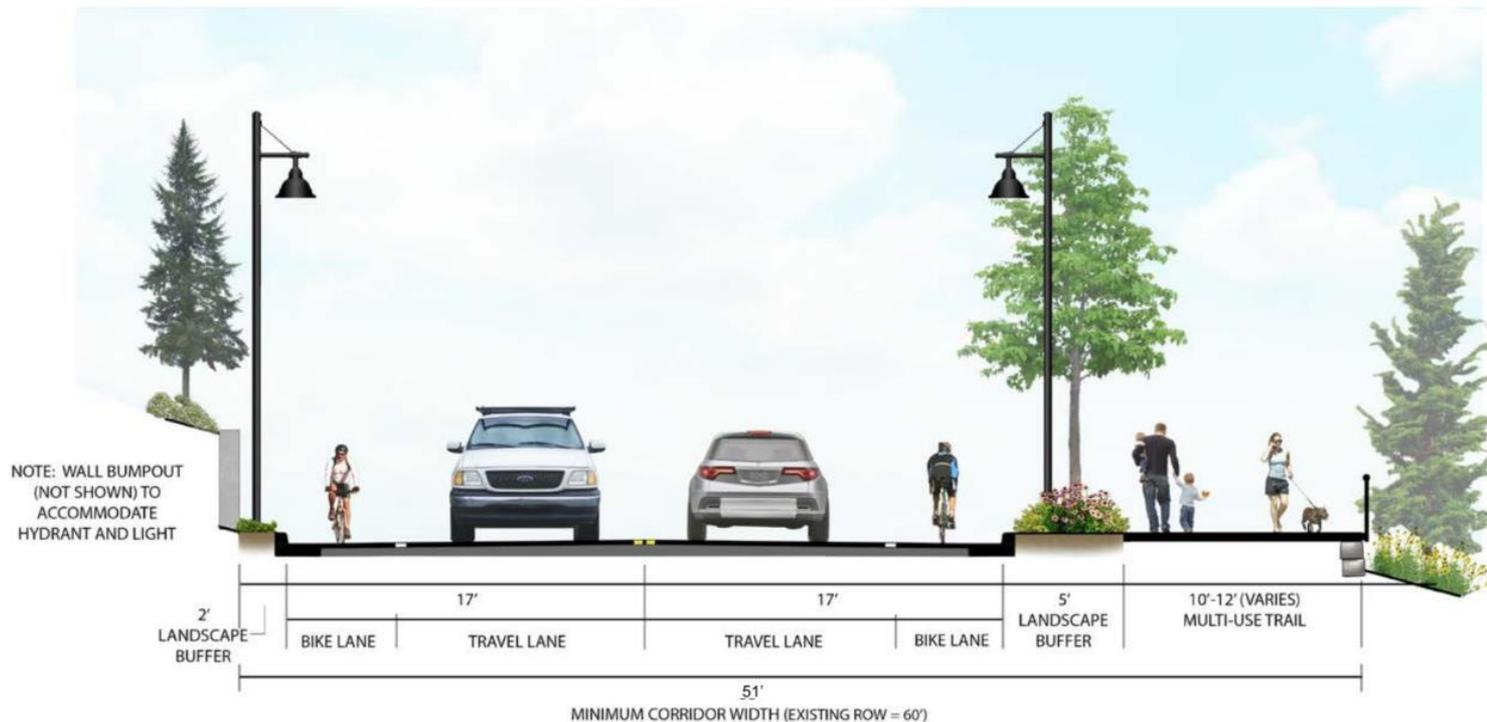

CONSULT

Pilot Public Engagement Process

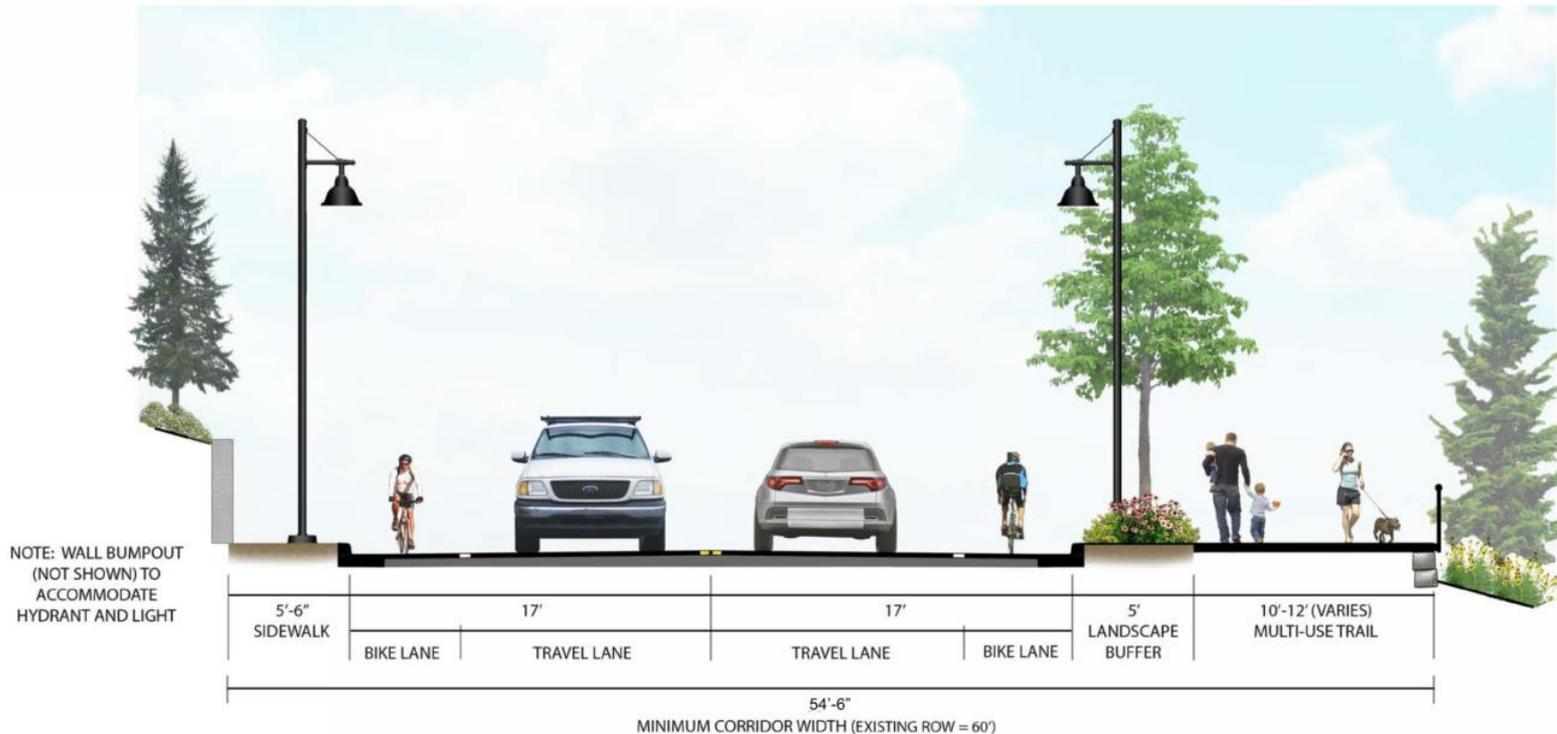

VE Study Proposed Road Section

Remove retaining wall, sidewalk, and planter along southern frontage of Newport Way

Preferred Road Section

Maintain a minimum 5' sidewalk along southern frontage of Newport Way

Preferred Road Section Benefits

- Responds positively to community call to action through the *Save Cougar Mountain* campaign
- Upholds fundamental values expressed by community
- Remains consistent with project goals

Summary & Next Steps

- Administration initiated VE Study
- VE Study results presented
- Preferred road section prepared based on VE Study recommendations and previous community outreach
- Next steps:
 - Prepare 90% design end of 2019 in anticipation of the ROW acquisition
 - Community open house in June
